

ROYAL BRIERLEY

In the last years of its existence Royal Brierley changed some of the glass shapes to appeal to modern tastes. In addition some were imported and they were clearly labelled as such. Except for a few long term favourites such as Braemar, Fuchsia and Bruce, other patterns are not common, possibly because of the limited number of outlets.

Below are the designs we currently have in stock. Please contact us concerning any specific item or design required. If unavailable we are happy to look for it and will keep you on our search list for 3 years, unless you wish otherwise.

ASCOT
